*Consuming raw or undercooked meats, poultry, seafood, shellfish, or eggs may increase your risk of foodborne illness. Nutrition information available upon request.

Pilot bread's popularity in Alaska is largely due to the fact that many parts of the state are still remote and rely heavily on shelf-stable foods: 82 percent of the state's communities don't have highway access, so most food has to come by boat or by plane.

DID YOU KNOW?

Potatoes were so valued for their vitamin C back in 1897 that Alaskan miners traded gold for them.
